King Needles Advantage

- German quality
- Transparent pricing
- Stable price
- Made in India
- MRP printed on pack as per Government rules
- For any query or support, email, SMS or call Beissel executives
- Free advice on selection of right needle and sewing techniques

Beissel and King Needles believe that compliance with Indian Law is the first step to quality. Ensure that “MRP” and “Country of Manufacture” are prominently printed as required by Indian Laws.

KING Needles

Cheap Needles

- Smooth eye
- No thread breakage

- Rough and uneven eye
- Frequent thread breakages

- Strong tip
- Easy penetration
- No damage to fabric

- Uneven and damaged tip
- Skipped stitches
- Damaged fabric

- 'Hump' near the eye
- Helps in bigger thread loop formation
- Thread moves smoothly
- No skipped stitches
- Useful for faster new machines

- Flat clearance near the eye
- Small thread loop formation
- Frequent thread breakages
- Skipped stitches
- Frequent disruption of work because of above factors

- Good stitch quality
- Perfect hole in fabric

- Poor stitch quality
- Creates bigger hole in fabric because of the damaged tip

- Long-lasting machines
- Low running noise
- Low machine maintenance

- Damaged machines
- Creates lot of noise as the uneven, blunt tip pierces the fabric
- High machine maintenance cost
